

SMD-321011

Knee High Compression Stocking

therapeutic compression socks (for varicose veins): Made by special elastic Lycra fibre. Forming a pressure gradient from top to bottom with the pressure depletion on the leg to cope with the venous hypertension inside the vein, facilitate the haemal circumfluence, and remedy the varicose veins.

Size ccl 1: 15- 21 mmHg
ccl 2: 23- 32 mmHg
ccl 3: 34- 46 mmHg

Panty-hose Compression Stocking

therapeutic compression socks (for varicose veins): Made by special elastic Lycra fibre. Forming a pressure gradient from top to bottom with the pressure depletion on the leg to cope with the venous hypertension inside the vein, facilitate the haemal circumfluence, and remedy the varicose veins.

Size ccl 1: 15- 21 mmHg
ccl 2: 23- 32 mmHg
ccl 3: 34- 46 mmHg

SMD-321014

Knee High Anti Thrombus Stocking

The product prevents the forming of deep venous thrombosis by the provision of declining pressure to the patient's lower extremity facilitating the haemal circumfluence of the vein.

Size Pressure: 15- 21 mmHg

S M L XL XXL

SMD-321015

Mid Thigh Anti Thrombus Stocking

The product prevents the forming of deep venous thrombosis by the provision of declining pressure to the patient's lower extremity facilitating the haemal circumfluence of the vein.

Size Pressure: 15- 21 mmHg

S M L XL XXL

SMD-321016

Compression Flight Stocking

People who travel, emplane, take bus often, or airline stewardesses - commonly referred to as the Economy Class Syndrome. The leg blood stagnation due to the weightlessness causes the lower extremity vein disease, and even pulmonary embolism in severe cases.

Size Pressure: 15- 21 mmHg

SMD-321001

Compression Wrist Support A

1. Eliminate the swelling of the wrist joint
2. Prevent Wrist joint injury and strengthen the wrist, Prevent work and sports injuries.
3. Antibacterial, odor-reducing properties
4. Enhance the joints and ligaments against external shocks, reduce trauma and muscle damage.

Size

S M L XL

Pressure: 20- 30 mmHg

SMD-321002

Compression Wrist Support B

1. Wrist joint swelling, pain, loose and strain
2. Antibacterial, odor-reducing properties
3. Wrist joint injury prevention, strengthen the wrist
4. To protect the joint is not over bending, to help the joint return to normal state

Size

S M L XL

Pressure: 20- 25 mmHg

SMD-321003

Compression Elbow Support

1. Compression design, can effectively improve blood circulation, rapid healing of hematoma and edema
2. To speed up the healing of minor trauma and strain of the elbow.
3. Antibacterial, odor-reducing properties

Size

M L XL XXL

Pressure: 20- 25 mmHg

SMD-321004

Compression Arm Sleeve

It can not only increased tissue pressure and promote lymph redistribution and drainage, but also enhance the muscle pump function, to prevent the lymph from flowing backwards. Lymphatic edema of upper limb is usually the sequelae of breast cancer radical operation

Size

S M L XL

ccl 2: 23- 32 mmHg

SMD-321005

Compression Knee Support

1. Perfect anatomical fit for maximum functionality
2. Antibacterial, odor-reducing properties
3. Memory foam pad perfectly hugs contours of the tendons
4. Heat and moisture management thanks to hydrophilic design

Size

S M L XL XXL

Pressure: 20- 25 mmHg

SMD-321006

Compression Calf Support

therapeutic compression socks (for varicose veins): Made by special elastic Lycra fibre. Forming a pressure gradient from top to bottom with the pressure depletion on the leg to cope with the venous hypertension inside the vein, facilitate the haemal circumfluence, and remedy the varicose veins.

Size

S M L XL XXL

ccl 2: 23- 32 mmHg

ccl 3: 34- 46 mmHg

SMD-321007

Compression Ankle Support

1. Prevention of ankle injury and promote recovery
2. The function of restraint and protection
3. Effectively improve the blood circulation, rapid improvement of hematoma and edema
4. Swelling caused by acute injuries such as muscle, ligament sprain, contusion, joint dislocation.

Size

S M L XL

Pressure: 20- 30 mmHg
